Dr. Chai Yew Shen
MD (USM)

To whom it may concern

I have two sons undergoing therapy at SI World (Cheras) centre. My eldest son is 11 years old who has undergone therapy section for 6 months. My youngest son is 8 years old and has been on therapy for one year. Both of my son had some degree of learning disabilities. My eldest son has mild ADHD and my youngest son is a slow learner and delay in speech due to sensory and may be mild autism. After undergoing therapy at SI World, both of them had shown improvement in their learning abilities.

My eldest son has improvement in his attention and reading retention. My youngest son has improve in his concentration, attention and communication skills and speech.

Through out these one year programme, both of them who undergo these therapy has never had any injury before. Therefore the programme is safe under proper guidance from the therapist.
